This architectural drawing shows a facade design on a grid. The central portion of the building features a gabled roof, while the sections on either side have flat roofs. The drawing is annotated with handwritten Hebrew text: 'גג' (Roof) is written above the central gabled section, and 'חלון' (Window) is written above the side sections. The facade is composed of various window types, including small square windows, larger rectangular windows, and groups of windows arranged in a grid pattern. The drawing is executed in black ink on a light-colored background.
